Javier Rivas

Frontend Engineer

javirivas14@gmail.com | linkedin.com/in/javirivash | github.com/javirivash | javirivash.dev | Mexico (Remote)

PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years building scalable, accessible web applications with **React, TypeScript and JavaScript (ES6)**. Led feature projects end to end as a Project Lead at DataRobot. Currently building and running a live full-stack platform (**Next.js, Supabase/Postgres, Stripe**) as a freelance sole developer. Native Spanish, advanced English.

CORE COMPETENCIES

React • TypeScript • Next.js • Design systems • Testing (Cypress, Jest, Vitest) • Feature ownership • Code review

WORK EXPERIENCE

Organic Nails (organicnailstepic.com) Apr 2026 - Present

Freelance Full-Stack Engineer (Sole Developer) *Tepic, Mexico*

- Designed, built and run alone a course-booking and studio-management platform (Next.js, React, TypeScript, Supabase/Postgres, Stripe, Vercel); live with 89 accounts and 406 course bookings.
- Shipped Stripe Checkout payments (deposits, full and idempotent balance payments) with seat holds and transactional writes.
- Built the full admin panel: scheduling with capacity limits, in-person sales, roll call, per-student ledger, transfers and refunds.
- Modeled core business rules as transactional PL/pgSQL with Row-Level Security across 29 versioned migrations; money stored as integer centavos.
- Automated email (Resend) and WhatsApp (Twilio) reminders via hourly scheduled jobs 7 days and 24 hours before each session.
- Delivered 353 merged PRs since development began in Jun 2026, with about 1,090 automated tests and CI on every PR (GitHub Actions).
- Used Claude Code as an AI coding assistant; owned architecture, data model, product decisions, code review and production operations.

DataRobot 2021 - 2025

Frontend Engineer II *Remote*

Associate Frontend Engineer (2021-2023), Frontend Engineer (2023-2024), Frontend Engineer II (2024-2025)

- Owned 5 feature projects as Project Lead, from planning and technical specs to testing and sign-off.
- Built and shipped production-scale UI features with React, JavaScript and TypeScript on a monolithic AI platform.
- Rolled out features behind Feature Flags under structured release cycles, aligning release readiness with Product, QA and Release.
- Contributed to the Design System library, refactored legacy components in a multi-year UI overhaul, built Cypress E2E tests and migrated 20+ suites from Jasmine to Jest.
- Contributed to a high-quality codebase through code reviews and constructive peer feedback.

Flex 2019 - 2020

Program Administrator *Mexico*

Internet Solutions de México 2018

Staff Consultant *Mexico*

EDUCATION

(ABET) B.S. Industrial Engineering with minor in Systems Engineering *Instituto Tecnológico y de Estudios Superiores de Monterrey* 2014 - 2018
